EXPERIENCE

Independent Software Engineer · freelance and contract Jun 2022 to present

Swalook CRM · Full-Stack Developer Jan 2026 to present

- Led a ground-up rebuild into a Next.js 16 Turborepo, including a multi-tenant super-admin with role-based access.
- Bun + Hono + Drizzle backend on PostgreSQL, Redis, and BullMQ; 35+ OpenAPI-documented REST endpoints.

Genuinest · Founding Engineer (Contract) Jan 2026 to present

- Built the Bun + Hono TypeScript API: Zod validation, JWT rotation, rate limiting, OpenAPI/Scalar docs.
- Moved the stack off high-cost cloud to Docker, Coolify, Traefik, and Tailscale; self-hosted MongoDB, Redis, RabbitMQ, and a 20TB MinIO cluster, ending recurring storage bills.

Aviz Health · Full-Stack Developer Dec 2025 to present

- Architected three Flutter apps and a Next.js 16 admin console; live on Google Play.
- Built the Bun + Hono + MongoDB backend with Redis for real-time matching, booking, and SOS dispatch.

Earlier clients: Aorta, BhawBhaw, Niti Health, Dpizza Time (hotel, pet-services, healthcare, food apps).

Thhiya · Full Stack Developer Nov 2025 to Jun 2026

- Built a partner-discovery and compliance platform from scratch: React 19 and TanStack Query on Bun + Hono.
- Built Puppeteer pipelines that seeded compliance data for 195 countries (payroll, benefits, tax, entities).
- Cut API latency by 20% with session-token validation, Prometheus metrics, and Zod request validation.

The Neural Networker · Web Development and React Native Intern Jun 2025 to Nov 2025

- AI-integrated Next.js and React Native interfaces; MongoDB index tuning for 30% faster analytics dashboards.

Huselk · Associate Software Developer (Team Lead) Feb 2022 to Apr 2023

- Led a squad shipping a Flutter e-commerce app (Firebase, Razorpay) and its admin panel.

PROJECTS

Tenet PG Management. Hostel platform in a Bun Turborepo: Next.js 16 dashboard and Hono API with SSE, UPI payments, WhatsApp Cloud API, PDF invoices, Playwright and Vitest.

Vini and Tini. Small language models trained from scratch in PyTorch. Vini: ~50M BitNet b1.58 edge assistant, ~1.05B-token pretrain, instruction tuning in progress. Tini: ~85M dense TypeScript coder, 46h on a T4, published on Hugging Face (jayptl-rq/tini).
