

Jay Patel

Software Engineer · Full-Stack, Mobile and Applied AI

Anand, Gujarat, India · +91 83200 36851 · hello@jayptl.me · jayptl.me · linkedin.com/in/jayptl-rq · github.com/jayptl-me

SUMMARY

Mobile engineer shipping Flutter and React Native apps since 2022, from a three-app healthcare ecosystem live on Google Play to marketplaces and e-commerce. Payments, maps, video calls, on-device ML, and the backends they talk to.

SKILLS

Flutter	Dart, Riverpod, Provider, GoRouter, Dio, GetIt, Hive, SQLite
React Native	Expo, React Navigation, Zustand, Redux Toolkit
Native features	ML Kit face mesh, Agora RTC, Google Maps, biometrics, push (FCM), Google Sign-In
Services	Firebase (Auth, Firestore, Storage, Messaging), Cashfree, Razorpay, Bun + Hono APIs

EXPERIENCE

Independent Software Engineer · freelance and contract Jun 2022 to present

Aviz Health · Full-Stack Developer Dec 2025 to present

- Architected three Flutter apps and a Next.js 16 admin console; live on Google Play.
- Integrated Google Maps routing, Agora RTC video consultations, Cashfree payments, and Firebase Auth.

Genuinest · Founding Engineer (Contract) Jan 2026 to present

- Architected the core Flutter app: Riverpod, GoRouter, Dio, Hive/SQLite offline storage, and FCM push.

Swalook CRM · Full-Stack Developer Jan 2026 to present

- Built the Flutter consumer app with ML Kit face-mesh AR hairstyle previews.

Earlier mobile clients · Freelance 2023 to 2025

- BhawBhaw: two React Native (Expo) apps for users and vendors with Maps, Razorpay, and Firebase sync.
- Niti Health: three Flutter apps (patient, doctor, clinic) with offline Hive/SQLite storage.
- Dpizza Time: Flutter ordering app and admin panel with Firebase and real-time order tracking.

The Neural Networker · Web Development and React Native Intern Jun 2025 to Nov 2025

- AI-integrated Next.js and React Native interfaces; MongoDB index tuning for 30% faster analytics dashboards.

Huselk · Associate Software Developer (Team Lead) Feb 2022 to Apr 2023

- Led a squad shipping a Flutter e-commerce app (Firebase, Razorpay) and its admin panel.

PROJECTS

All Socials. Flutter chat app with real-time messaging and biometric/password lock.
Vini and Tini. Small language models trained from scratch in PyTorch. Vini: ~50M BitNet b1.58 edge assistant, ~1.05B-token pretrain, instruction tuning in progress. Tini: ~85M dense TypeScript coder, 46h on a T4, published on Hugging Face (jayptl-rq/tini).

EDUCATION AND RECOGNITION

- B.Tech, Information Technology, A.D. Patel Institute of Technology (CVM University), 2022 to 2026
- 1st place, FinTech track, CHARUSAT-Odoo Hackathon 2025 (650+ applicants) · Technical Leadership Award, Apr 2025
- Certifications: Google Cloud Associate Cloud Engineer, AWS Cloud Practitioner, MongoDB Node.js Developer, Meta Front-End Developer, DataCamp SQL Associate
