SUMMARY

Engineer building wallet and dApp tooling on a production full-stack foundation, since 2022: a Manifest V3 browser wallet, a companion dApp, and a mobile wallet, plus the TypeScript backends and self-hosted infrastructure to run real products.

SKILLS

Web3	Solidity, EIP-1193, EIP-6963, Manifest V3, Wagmi, Viem, Web3Modal, ethers.js, Alchemy SDK, WalletConnect, Ethereum, Base
Frontend	TypeScript, React 19, Next.js 16, Vite, Radix UI, Tailwind
Backend and infra	Bun, Hono, PostgreSQL, MongoDB, Redis, Docker, Coolify, Traefik, MinIO
Mobile	React Native (Expo), Flutter

PROJECTS

- Cross-Net browser wallet. Manifest V3 extension for Chrome, Firefox, and Edge implementing the EIP-1193 provider API and EIP-6963 discovery; multi-chain balances, signing, network switching.
- Cross-Check dApp. React + Vite + Wagmi + Viem dApp: wallet connection via Web3Modal, live multi-chain balances, transaction submission and status.
- Cross-Access mobile wallet. Expo wallet with ethers.js, Alchemy SDK for indexed chain data, and WalletConnect pairing with the browser extension.

EXPERIENCE

- Independent Software Engineer · freelance and contract Jun 2022 to present
- Genuinst · Founding Engineer (Contract) Jan 2026 to present
- Built the Bun + Hono TypeScript API: Zod validation, JWT rotation, rate limiting, OpenAPI/Scalar docs.
 - Moved the stack off high-cost cloud to Docker, Coolify, Traefik, and Tailscale; self-hosted MongoDB, Redis, RabbitMQ, and a 20TB MinIO cluster, ending recurring storage bills.
- Swalook CRM · Full-Stack Developer Jan 2026 to present
- Bun + Hono + Drizzle backend on PostgreSQL, Redis, and BullMQ; 35+ OpenAPI-documented REST endpoints.
- Aviz Health · Full-Stack Developer Dec 2025 to present
- Integrated Google Maps routing, Agora RTC video consultations, Cashfree payments, and Firebase Auth.
- Earlier clients: Aorta, BhawBhaw, Niti Health, Dpizza Time (hotel, pet-services, healthcare, food apps).
- Thhiya · Full Stack Developer Nov 2025 to Jun 2026
- Built a partner-discovery and compliance platform from scratch: React 19 and TanStack Query on Bun + Hono.
- Huselk · Associate Software Developer (Team Lead) Feb 2022 to Apr 2023
- Led a squad shipping a Flutter e-commerce app (Firebase, Razorpay) and its admin panel.

EDUCATION AND RECOGNITION

- B.Tech, Information Technology, A.D. Patel Institute of Technology (CVM University), 2022 to 2026
- 1st place, FinTech track, CHARUSAT-Odoo Hackathon 2025 (650+ applicants) · Technical Leadership Award, Apr 2025
- Certifications: Google Cloud Associate Cloud Engineer, AWS Cloud Practitioner, MongoDB Node.js Developer, Meta Front-End Developer, DataCamp SQL Associate
